

EDUCATION

Sri Eshwar College of Engineering	B.E. CCE	CGPA: 6.47	2023-2027
Karapettai Nadar Boys Higher Secondary School	HSC	65%	2022-2023
Karapettai Nadar Boys Higher Secondary School	SSLC		2020-2021

INTERNSHIP EXPERIENCE

Java Spring Boot Full Stack Development - Rampex Technologies 2025

Developed full-stack web applications using Spring Boot and React.js, building RESTful APIs and managing data with MySQL. Implemented secure authentication using Spring Security and JWT, enhancing backend–frontend integration.

PROJECTS

Origin Basketball Club - Tournament Analytics System [Github](#) 2026

Designed an end-to-end basketball tournament analytics system using MySQL and Power BI. Developed 15+ normalized relational tables and created DAX measures for key performance indicators. Built interactive dashboards for tournament overview, financial tracking, and player/team performance analysis.

Tech Stack : MySQL, Power BI, DAX

Tamil Nadu Bus Route Optimization & Efficiency Analytics [Github](#) 2026

Developing an end-to-end analytics system to evaluate TNSTC bus route efficiency, passenger load, and delay patterns. Designing a normalized MySQL database and simulating realistic transit data using Python (Pandas) with EDA insights. Building an interactive Power BI dashboard for route performance, coverage gaps, and cost efficiency analysis.

Tech Stack: Python, Pandas, MySQL, Power BI, DAX, Excel

Dog Adoption Platform [Github](#) 2025

Developed a user-centric web platform connecting dog adopters with donors, streamlining the adoption process. Implemented secure authentication, dynamic listings, and automated donor data management. Enabled real-time adoption tracking and efficient coordination with a focus on accessibility and user experience.

Tech Stack : MongoDB, Express.js, React.js, Node.js, JWT Authentication.

Light Abnormality Detection System [Github](#) 2025

Developed a smart street light fault detection system using ESP32 and electrical sensors for real-time monitoring. Implemented anomaly detection and integrated IoT-based remote tracking and control. Enabled instant fault alerts via Twilio SMS, reducing downtime and maintenance effort.

Tech Stack : IoT, ESP32 , Twilio API

CERTIFICATIONS

Understanding Incubation and Entrepreneurship (Elite Gold) | **NPTEL** 2026

SQL – Skills Certification Test | **HackerRank** 2026

Introduction to Generative AI | **IBM SkillsBuild** 2025

Introduction to SQL | **Skillrack** 2024

Java programs | **Skillrack** 2024

Mastering Data Structures and Algorithms Using C and C++ | **Udemy** 2024

ACHIEVEMENTS

InstaVenture AI Rapid Prototyping Hackathon Winner – Conducted by CED, Anna University part of GSS-2025

Published an IEEE paper on IoT and ML-based predictive fault detection for smart city street lighting systems.

Skillrack Certifications for SQL and JAVA Problem set

LeetCode Solved 100+ Problems | [Profile](#)

HackerRank Obtained SQL Certification | [Profile](#)

SKILLS

Languages	Python (Pandas, NumPy) SQL (Joins, Subqueries, Aggregations)
Data Analysis	Data Cleaning EDA Data Modeling KPI Development Statistical Analysis (basic)
Visualization	Power BI Tableau
Database	MongoDB MySQL PostgreSQL
Tools	Excel Github VSCode
