EDUCATION

COLLEGE EDUCATION -Sri Eshwar College of Engineering (B.Tech AI & DS) 6.8 (CGPA)	2023-2027
SCHOOLING-- Srinivasa Vidhyalaya Matriculation Higher Secondary School 81%	2021-2023
SCHOOLING-- Srinivasa Vidhyalaya Matriculation Higher Secondary School 81%	2020-2021

INTERNSHIP EXPERIENCES

Sri Eshwar College of Engineering – AI/ML Project Intern	2024
- Built AI/ML based applications including fraud detection and NLP systems, gaining hands-on experience with Python, Scikit-learn, TensorFlow, Flask, and REST API integration. - Worked on full-stack development combining React.js frontend with Flask/Node.js backends using MongoDB and MySQL for production-ready applications.	

SKILLS ACQUIRED:

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap CSS

Backend: Node.js, Express.js, Django, Flask, REST APIs, MongoDB, MySQL

AI/ML: Python, Scikit-learn, TensorFlow, NLP, OpenCV, Google Colab

PROJECTS

AI-Based Customer Support Chatbot Github	2024
Tech Stack: Python, NLP, TensorFlow, Flask, MongoDB, React.js	
- Developed an intelligent chatbot capable of handling customer queries using Natural Language Processing and intent recognition. - Integrated real-time chat support, automated ticket generation, and conversation history management using MongoDB. - Designed responsive UI and REST APIs for seamless communication between frontend and backend systems.	
Smart Attendance Monitoring System using Face Recognition Github	2024
Tech Stack: Python, OpenCV, Face Recognition, Flask, MySQL	
- Created an AI-driven attendance system using facial recognition technology for automated employee/student attendance tracking. - Implemented real-time face detection and recognition with secure attendance logging in MySQL database. - Added admin dashboard for attendance reports, analytics, and employee management functionalities.	
AI-Powered Interview Preparation Platform Github	2024
Tech Stack: React.js, Python, Flask, NLP, MongoDB	
- Developed an AI-based mock interview platform that generates technical and HR interview questions dynamically. - Integrated speech/text-based answer evaluation using NLP techniques to provide performance feedback and scoring. - Designed responsive dashboards for progress tracking, performance analytics, and interview history management.
